William A. Burrows

709 Division St.

Gloucester, NJ 08030

Please consider this a letter of verification as to your reception of WCAW, 680 kilocycles, Charleston, WV on 12-22-86 from 4:30 pm to 4:34 pm.

WCAW's studios is located in Charleston with it's transmitter site approximately one air mile WSW. We operate a three tower directional system @ 50,000 watts daytime and 250 watts two tower array at night with a PSA of 500 watts on the day pattern. As you can see on the enclosed map our major lobe bangs out in a northwesterly direction.

Thank you very much for your letter, we indeed, appreciate it.

Sincerely,

Mark K. Skinner
